About I.D.

I.D.

Design is everywhere. In fact, there are so many new projects, ideas and blogs that it's hard to keep up with the conversation. And that's where I.D. comes into play. Just think of us as your personal concierge to the design world. We're sorting through the noise to connect you with the future of design.

Follow [@IDOnline](#) to discover the best design links morning, noon and night. Visit our online gallery with Behance (www.id-mag.com) to get inspired by innovative product design. And last but definitely not least, enter the [I.D. Annual Design Review](#) to claim your spot in design history. This legendary competition has crowned the year's best design since 1954.

I.D. has always been about thoughtful discourse and what's next. Our new online format allows us to reach into every corner of the design world to bring you even more of the best ideas.
