## GRADO ZERO SPACE

A new generation light source called re LIGHT is based on electro-luminescent technology by Giada Dammacco and the GZE design team. It is a soft, shining fabric with physical-mechanical properties that make it lightweight, foldable, durable and eco friendly. The panel can be customised in shape, dimension and colour, and contains no mercury or other toxic substances. Re LIGHT is so versatile that it could be used to great effect in the fashion, packaging, automotive, boating or aerospace industries.

## MILLIKEN

Milliken Contract has launched a guide to its spectrum of commercial carpet tiles called Portfolio2. Replacing the 2006 edition, Portfolio2 includes new ranges such as Line Up, Access All Areas, Laylines and Strike Out. The Guide has enhanced user-friendly navigation making it easy to specify high-performance carpet tiles, including certified carbon-neutral products. Specifiers can expect delivery within 10 days of orders up to 1,000m<sup>2</sup>, and with improved content, such as maintenance instructions, Portfolio2 will prove a valuable tool after specification too.

## ALLERMIUR

Stirling is a sofa with classic proportions and clean lines emphasised by the robust yet elegant floating leg frame. The range comprises of an armchair, two or three-seat sofa, ottomans and a range of complementary tables, all of which are available in two designs, with leg and arm options. The generous dimensions provide the luxury of a domestic seat combined with height and back support suitable for contract use and are engineered to create excellent ergonomics. Allermuir use FSC timber and recycled foam where possible.

## SIXINCH

Sixinch is an international furniture and design company located in Belgium, Portugal and Japan. They design and manufacture furniture in coated foam, but they also work in other finishes to suit customer's requirements. Foam can be made into any shape or dimension, and coated in any RAL, Pantone and NCS colour, and manufactured in-house to any design. Sixinch work with architects, designers and private clients to their customer's specifications or drawings.
